

Sustainability with a Natural Aesthetic

On a journey to the world's most sustainable accessories.

At ADA our ambitious sustainability journey is transforming our approach to everything we do. Step by step, trip by trip, we're investing in a more sustainable future with you, our customers and your guests.

The goal is to eliminate plastic in our products and to use natural, renewable materials like bamboo, wood, paper and cotton as replacements wherever possible. And all our paper-based packaging is now FSC-certified.

Pamper your guests with our mindful accessories, created with more sustainable content and designed with FSC-certified recycled packaging to complement a range of hotel room interiors.

Our new EcoGreen collection features a naturally textured, cool-brown kraft cardboard packaging aesthetic.
