
Slippers

Sustainability & Comfort

Step into a world where luxury and comfort meet sustainability with our exclusive line of Eco Slippers.

Consciously designed, crafted from natural materials and plastic-free wherever possible, we're sustainably reinventing hotel slippers.

Our range of Eco Slippers is guided by three core values: sustainability, comfort and simplicity. We have chosen renewable natural materials – cotton, plant-based viscose, cork, and straw fiber – to create these timelessly modern designs.

Each pair of slippers is wrapped in a recycled paper banderole printed with soy ink, reflecting the mindful approach to the collection.
